In the Moments, The Way Revealed Itself is a lyrical journey through memory, love, and time. With tender honesty and poetic grace, Alaa Farhat revisits the fragments of her family's past moments captured in old photographs, in laughter, in silence, and in the spaces where words could not reach. Each page becomes a meditation on endurance and belonging, how love survives exile, how beauty endures even as the world changes, and how memory becomes the bridge between what was and what remains. Through vivid imagery and quiet reflection, Alaa transforms the personal into the universal, revealing that within every fleeting moment lies an eternal truth: There is nothing truly lost that is lovely. A book for those who treasure depth, nostalgia, and the gentle power of remembrance.
